

Cardboard Packaging

# ProducePack™ Punnet Tray

Our ProducePack™ Punnet Trays are made from renewable cardboard. They offer a sustainable alternative to PP and APET trays.

### Characteristics

- ✓ Ideal for fresh fruits and vegetables
- ✓ Available in all common formats

## Benefits

### Durability

The ProducePack™ Punnet can achieve a plastic reduction of up to 100% (if barrier coating is not required). The cardboard is made from renewable fibers.

### Consumer experience

The ProducePack™ Punnet meets consumer demand for better hygiene. The possibility of custom design ensures eye-catching appeal on shop shelves.

### Shelf life

The ProducePack™ Punnet can offer the same shelf life as standard trays for certain products. As a result, less food is wasted.

### Operational efficiency

A ProducePack™ Punnet can be sealed at the same speed as traditional plastic punnets. Available in all common sizes and suitable for various applications.
