

Cardboard Packaging

SliceFresh®

The SliceFresh® consists of cardboard with a thin barrier film, to which a MAP film is applied by a traysealer of your choice to ensure optimal preservation. Ideal for charcuterie or cheese slices.

Thanks to innovative MAP packaging, consumers can effortlessly separate each slice with ease. But that's not all – our packaging features a resealable design, enhancing shelf life and combating food waste.

SliceFresh® takes sustainability seriously, offering packaging that is not only convenient but also 100% recyclable. With our unique 'easysplit pre-cut' corner, separating cardboard from plastic is a breeze. Join us in our commitment to a greener future with SliceFresh®.

Characteristics

- ✓ Suitable for cold meats or cheese slices
- ✓ Powerful advertising medium due to fully printable cardboard

Applications

-  Chilling
-  Freezing

Benefits

Sustainable

The cardboard is easily separated from the plastic, resulting in perfect recyclability.

Powerful branding

The SliceFresh® can be fully printed with your marketing story.

Comfort

Easy to open and reseal resulting in less food waste.
